The duplicate five-twenty gold coupons, of which mention was recently made in our despatches, continue to make their appearance at the Treasury Department in such numbers as to cause some anxiety to the chief officials. They are pronounced to be genuine impressions, with the exception possibly, of the numbering, and it is supposed they were either stolen or fraudulently issued from the department. It is yet impossible to estimate their amount.

MASSACHUSETTS. We learn that a little son of Mr. O. H. McIntire, of Bridgford, fell from a cart load of stones which his father was hauling, yesterday afternoon, and the wheels passed over his chest before the team could be stopped, killing him instantly. He was about eight years of age.

The Argus asserts that the wife of a homeopathic physician, in Saco has been detected in taking articles from stores without paying for them, and on a search of their house it was stated that some thousand dollars worth of dresses, ribbons, lace, thread and other articles were discovered which were supposed to have been stolen, though the marks had been removed so that that few things could be positively identified. It is a sad development.

The Lewiston Journal says the mercury on Tuesday in the sun indicated 132 degrees in this city; in the shade, 100 degrees—the warmest day, on the whole, known for many years, all over the country.

The Albany papers challenge any locality to produce the credit of Mr. David Hays, who, although now in his 90th year, hoed 650 lbs of corn in a quarter of a day recently. That yarn won't stand the test of figures. It claims more than four bills per minute! Who trots out the hexed old fellow?

The following definition of the rights of woman is given in a Vermont paper: "To have her lord with all her heart, and her back to herself—and to make good bread."

"To us," exclaims the Richmond Times, "does not belong the credit of the experiment of making the Ethiopian white, but to you, who tried that experiment on a very extensive scale."

BIRMINGHAM. The Belfast Age mentions several new stores now upon the building in that city. Mr. L. A. Knowlton has erected a very handsome three story wooden building at the foot of the street, to be occupied by himself as a wholesale and retail store. Mr. A. Hayford is erecting a large wooden store at the corner of Cross and Main streets. The plan for a block of five brick stores with granite front, extending down the street from the Whitaker block, has been drawn, and the work upon it will commence immediately. The contractors to be—Sherburne, Sloper, one; M. W. Frost, one; Reuben Sibley, two; Robert P. Potts, one. Wm. Swan proposes to build a block on the lot.

The Machias Union says a subscriber to Warren writes that he has used lye to kill lice on apple trees. One and a half quarts of soft soap to two quarts of water, he thinks about strong enough. Apply it to the trees with a cloth or a swab.

The Portland Press says a small party of gentlemen from Albany, N. Y., on an excursion along the coast, touched at Portland, and remitted to Mayor Stevens \$100 as a testimonial of their sympathy with that unfortunate city.

A Portland correspondent states that a new and commodious hotel will take the place of the Elm House, on Federal street, destroyed by fire, and it will be a formidable rival to any in the State. The plans and contracts are in process of completion, and a gentleman of a well known summer hotel is spoken of as host.

One hundred barrels of flour were shipped to Portland on Monday, by the Relief Committee of St. Louis, for the benefit of the sufferers by the late fire, and more is to be sent soon.

The Democratic State Convention will be held in Deering Hall, in Portland, on Tuesday, the seventh day of August.

It is now understood in Paris that the Emperor intends gradually to pull down the whole Palace of the Tuilleries and rebuild it with a magnificence in accordance with the massive and ornate traditions of the New Louvre. The project will no doubt involve an immense outlay.
